PROFESSIONAL SUMMARY

Operational capacity lost to manual tasks is the most common and most fixable problem in digital teams. Over 9 years — 2 AI-focused — I have solo-run 3 international scientific conferences per week across European cities, coordinated 400+ assets across 40 markets with zero compliance breaches, and built 40+ automation pipelines that cut manual effort 60% and tripled content throughput. I work independently, deliver under pressure, and have operated across cultures — the same qualities I'd bring to a New Zealand team.

KEY ACHIEVEMENTS

40+ automation pipelines built	Cut manual processing 60% across 8 client accounts — zero headcount increase required.
3 conferences/week · 3 countries · 1 person	Solo-organised scientific conferences across Rome, Barcelona & Frankfurt for Omics International in 2018.
400+ digital assets coordinated	Across 40+ international markets at Cambridge University Press — zero compliance breaches in 2 years.
200+ content items reviewed daily	99%+ policy accuracy at Meta (via Wipro) sustained across 18 consecutive months.
3× content throughput achieved	34% average post reach improvement QoQ over 15 months at Spotlit AI.
4 Excel reporting stacks replaced	Live KPI dashboards save 6+ hrs/client/week and enable same-day decisions across 8 accounts.

WORK RIGHTS & VISA

Indian national — would require employer-supported Essential Skills Work Visa or equivalent to work in New Zealand. Open to sponsorship conversations.

CULTURAL FIT & VALUES

I respect the principles of Te Tiriti o Waitangi and the bicultural foundations of Aotearoa. I bring genuine curiosity, team orientation, and a collaborative approach to every role, aligned with New Zealand's inclusive workplace culture.

KEY SKILLS

AI & Automation: Generative AI (Claude, Claude Code, GPT-4, Gemini), agentic AI workflows, prompt engineering, no-code automation (Make, Zapier, n8n), AI content systems

Operations: Process design & optimisation, digital operations, project coordination, workflow standardisation, change management

Business Intelligence: GA4, Excel (Advanced), KPI reporting, data visualisation, data-driven decision-making

Ways of Working: Agile/Scrum, stakeholder management, cross-functional coordination, multi-timezone delivery

Growth & Content: Content operations, social media management, SEO / GEO / AEO

WORK EXPERIENCE

AI Operations & Automation Consultant (Freelance)

Mar 2025 – Present

Independent · Remote, India

- Designed and deployed 40+ no-code automation workflows (Make, Zapier, n8n) across 8 B2B client accounts, cutting manual operational effort by ~60% and enabling 3× content throughput — with zero headcount increase.
- Embedded generative AI (Claude, GPT-4) into 6 client reporting and content pipelines; replaced 4 manual Excel-based reporting stacks with real-time KPI dashboards, saving an average of 6 hours per client per week.

- Managed 8 concurrent client engagements as sole point of contact — scoping, delivery, and iteration — achieving 100% on-time delivery across all active projects.

Social Media Manager

Jan 2024 – Mar 2025

Spotlit AI · Remote

- Operated LinkedIn and Instagram content on automation-first workflows, publishing 5–7 posts per day per platform while reducing manual publishing effort by ~60% versus the manual baseline.
- Deployed AI-assisted content systems (Claude, GPT-4) that delivered a 34% improvement in average post reach quarter-over-quarter across a 15-month engagement.
- Applied GEO and AEO optimisation to 3 recurring content formats, improving AI-search surface discoverability and contributing to a 20%+ increase in inbound traffic.

Social Media Manager & Content Designer

Mar 2023 – Dec 2023

Keyblocks Strategy · Hyderabad, India

- Built and executed content strategies for 6 B2B technology and business clients; introduced AI-assisted production systems that reduced per-piece turnaround time by 40%.
- Coordinated a 4-person content team across 6 simultaneous client accounts, delivering 200+ content pieces over 9 months with zero missed client deadlines.
- Ran multi-channel digital campaigns (LinkedIn, Instagram, Twitter) for 6 clients, aligning each quarterly initiative with stakeholder-agreed OKRs.

Content Moderator (Meta, via Wipro)

Aug 2021 – Jan 2023

Wipro · Hyderabad, India

- Reviewed and actioned 200+ pieces of user-generated content daily against Meta's platform policies, sustaining 99%+ policy accuracy across an 18-month tenure.
- Operated within a metrics-driven trust & safety queue processing millions of items monthly; consistently met throughput SLAs across 3 major policy framework updates.
- Adapted to revised escalation workflows within 48-hour retraining windows on each policy change — zero accuracy regression recorded on post-update audits.

Media Delivery Coordinator

Jun 2019 – Aug 2021

Cambridge University Press · Hyderabad, India

- Served as central coordination point for 400+ digital assets across editorial, legal, and production pipelines — ensuring zero compliance breaches across a 2-year tenure.
- Managed artwork commissioning and rights compliance across 40+ international markets, coordinating with rights holders and studios across 6 time zones simultaneously.
- Oversaw end-to-end voiceover and audio production for 30+ educational titles, delivering all assets to global distribution deadlines across 3 continents.

Scientific Conference Coordinator

2016 – 2019

Omics International · Hyderabad, India / Europe

- Deployed solo to Rome, Barcelona, and Frankfurt in 2018 to plan and execute scientific conferences end-to-end — managing up to 3 events per week across 3 countries with zero on-site support.
- Owned all conference logistics independently: venue liaison, speaker scheduling, delegate registration, AV coordination, and on-site management for multi-day international academic events attended by researchers and professionals from across Europe.
- Served as the single point of contact for international speakers, delegates, and venue partners across 3 European cities — managing real-time problem-solving across language and cultural contexts under continuous high-pressure delivery schedules.

PROJECTS

AI-Powered Content Automation System

- Architected a Make + Claude pipeline handling 3,000+ content items per month across 3 channels — cut production time by 60% and standardised output quality across all formats.

Business Intelligence Reporting Framework

- Replaced 4 manual Excel-based reporting stacks with live KPI dashboards; reduced weekly reporting overhead by 6+ hours per client and enabled same-day decision-making.

EDUCATION

Bachelor of Pharmacy (B.Pharm)

Jawaharlal Nehru Technological University Hyderabad (JNTUH), India | 2011 – 2015

PROFESSIONAL DEVELOPMENT

- Siemens Project Manager Job Simulation — Forage (Jan 2026): KPI development, project dashboards
- Claude Code in Action — Anthropic (Mar 2026)
- Claude 101 — Anthropic (2026)
