

Manish Rohan James

AI Operations & Automation Specialist

manishrohan2.rj@proton.me | +91-9700035385 | linkedin.com/in/vsmrj | Hyderabad, India

PROFESSIONAL SUMMARY

AI operations and automation professional with 6+ years in digital operations, including 2+ years focused on AI-driven workflow automation. Combines no-code automation (Make, Zapier, n8n) and generative AI (Claude, GPT-4) with a publisher's discipline in process and delivery — cutting manual effort, tightening workflows, and improving reporting and decision-making. Background spans content operations, business intelligence, and global delivery coordination. Open to relocating to Australia and available to commence in a new role with appropriate notice.

WORK RIGHTS

Indian national — would require employer-sponsored visa (e.g. TSS 482 or equivalent) to work in Australia. Open to discussing relocation assistance and visa sponsorship.

KEY SKILLS

AI & Automation: Generative AI (Claude, Claude Code, GPT-4, Gemini), agentic AI workflows, prompt engineering, no-code automation (Make, Zapier, n8n), AI content systems

Operations: Process design & optimisation, digital operations, project coordination, workflow standardisation, change management

Business Intelligence: GA4, Excel (Advanced), KPI reporting, data visualisation, data-driven decision-making

Ways of Working: Agile/Scrum, stakeholder management, cross-functional coordination, multi-timezone delivery

Growth & Content: Content operations, social media management, SEO / GEO / AEO

PROFESSIONAL EXPERIENCE

AI Operations & Automation Consultant (Freelance)

Mar 2025 – Present

Independent · Remote, India

- Built AI-assisted and no-code automation workflows (Make, Zapier, n8n) for B2B clients, cutting manual operational effort by ~60% while scaling output.
- Integrated generative AI (Claude, GPT-4) into content, reporting, and operational processes; designed KPI dashboards that drive data-led decisions.
- Owned client engagements end-to-end: scoping, delivery, reporting, and process improvement as the single point of contact.

Social Media Manager

Jan 2024 – Mar 2025

Spotlit AI · Remote

- Ran LinkedIn and Instagram content operations on automation-driven workflows, scaling daily output while reducing manual publishing effort by ~60%.
- Deployed AI-assisted content systems and real-time analytics loops, improving average post reach quarter-over-quarter.
- Applied GEO and AEO principles to improve discoverability on AI-powered search surfaces.

Social Media Manager & Content Designer

Mar 2023 – Dec 2023

Keyblocks Strategy · Hyderabad, India

- Built and executed content strategies for B2B technology and business clients; introduced AI-assisted content systems for efficiency and consistency.
- Led content production workflows and coordinated a small content team across client accounts.
- Ran multi-channel digital campaigns and aligned initiatives with stakeholder objectives.

Content Moderator (Meta, via Wipro)

Aug 2021 – Jan 2023

Wipro · Hyderabad, India

- Reviewed and actioned high volumes of user-generated content against Meta's platform policies, meeting strict accuracy and throughput SLAs.
- Applied detailed, frequently-updated policy guidelines consistently across large content queues in a metrics-driven trust & safety operation.

- Maintained daily quality and productivity targets while adapting to changing policy and escalation workflows.

Media Delivery Coordinator

Jun 2019 – Aug 2021

Cambridge University Press · Hyderabad, India

- Central coordination point between editorial, legal, and production for digital-asset QA and worldwide distribution, managing workflows to global deadlines.
- Coordinated artwork commissioning and rights compliance across international markets with zero compliance breaches across tenure.
- Managed voiceover and audio asset production end-to-end, liaising with studios and rights holders across multiple time zones.

PROJECTS

AI-Powered Content Automation System

- Designed AI-assisted workflows for content generation and publishing; reduced manual effort through standardisation and integrated generative AI into daily operations.

Business Intelligence Reporting Framework

- Built KPI tracking and structured reporting that improved visibility into operational and marketing performance, enabling data-driven decisions.

EDUCATION

Bachelor of Pharmacy (B.Pharm)

Jawaharlal Nehru Technological University Hyderabad (JNTUH), India | 2011 – 2015

PROFESSIONAL DEVELOPMENT

- Siemens Project Manager Job Simulation — Forage (Jan 2026): KPI development, project dashboards
- Claude Code in Action — Anthropic (Mar 2026)
- Claude 101 — Anthropic (2026)
