

PERSONAL STATEMENT

Unternehmen verlieren 60 % ihrer operativen Kapazität durch manuelle, wiederholbare Arbeit — genau diese Lücke schließe ich. In 6 Jahren digitaler Operations-Erfahrung (2 Jahre KI-fokussiert) habe ich 40+ Automatisierungs-Workflows in Make, Zapier und n8n aufgebaut und Claude sowie GPT-4 in 8 Produktionssysteme integriert — mit dem Ergebnis: 60 % weniger manueller Aufwand, 3-facher Content-Durchsatz, Echtzeit-KPI-Dashboards statt Ad-hoc-Tabellen. Deutschlerner (A2), offen für Relocation nach Deutschland oder in die Niederlande.
